CUBA'S CUSTOMS REVENUES.

The island government, as administered by the United States military authorities, has yielded for the first quarter \$3,500,000 as customs receipts. Of this amount, \$2,-100,000 has been spent, the city of Havana getting \$1,100,000, and the city of Santiago \$259,000. Each provincial governor received all he asked. Havana's engineering estimates for April aggre-

Silver is appreciating. Worth 55 cents during the blockade, it has now risen to 93, on the basis of the local value of the centen, \$5.30. Change is scarce, and there is little American fractional currency circulated. American bills, however, are often to be met, and prices are going on the American gold basis.

A large proportion of both will be supplied to the American troops through the commissary department.

THE WAR IN THE EAST.

Considerable more fighting has been going on around Manila since the capture of Malolos. On Monday Gen. Lawton captured the town of Santa Cruz, the rebels fleeing toward the mountains, leaving dead on the field. Our loss was light. There has been more or less fighting along the railroad, but the enemy has been invariably driven off. Whatever the Filipinos may lack in fighting qualities they are persistent, generally renewing the attack in guerilla style. Gen. Lawton's men have taken to Indian tactics which, it is believed will do more to demoralize the enemy than the usual modes of attack. Just what the outcome of the campaign will be is hard to determine. The rainy season is coming on and our army will be unable to make any important advances A number of the fleeing citizens have re turned to their homes, but it is suspected in fact is positively known, there are a large number who, infatuated with the idea of independence, will yet make a determined stand.

IS IT A WHITEWASHING INQUIRY? Things have reached an acute stage in the beef inquiry. The court did several things last week calculated to make the public suspect its fairness, and believe that it had a preference as to the Order of the Sword, by the King of Swedkind of testimony it wished to hear. It en. He says he doesn't know why. It started by ignoring a courteous request | will require an act of Congress to enable from ex-Representative J. Hamilton Lewis that he be allowed to appear as counsel for Dr. Daly, when he gave his testimony, and it aggravated matters by trying to dodge a specific request of Gen. Miles that 131 witnesses whose names he furnished should be summoned This brought out a sharp letter from Gen. Miles, from which the following is an extract: "It is my belief that at leas 25,000 men, and undoubtedly a much greater number, would confirm the testimony that has already been given that a portion of the food supplied the army was unwholesome and unsuitable for use." Gen. Miles knows that the people are with him in this case and he has no idea of being bluffed off.

FAVORS CUBAN ANNEXATION.

Ex-Representative James Hamilton Lewis, who has been following the beef inquiry carefully, says that in his opinion there is nothing left for the commission to do but to sustain General Miles.

"For them to make a report adverse to the great volume of testimony presented," he says, "would be extraordinary. The the country in which they have found American people have already made up freedom, equal rights, manhood and their minds from this testimony, and they sustain General Miles."

Mr. Lewis has just returned from Cuba, a strong believer in annexation. "Unless we retain control of the Island," he said, "we shall have a series of revolutions at our doors, and the trouble involved will be so great as to make annexation the shortest and cheapest way out

REORGANIZATION OF THE B. AND O At the stockholders' meeting of the Baltimore and Ohio Railroad Company Tuesday formal action was taken to return to the corporation the property which has been in the hands of the court 28, 1896. June 30 is the date fixed for taking the property from the hands of the receivers, and the railroad fiscal year, begining July 1, will be started with the Baltimore and Ohio again under the control of the corporation chartered in 1827. There will be practically unlimiteded financial backing. The lines will aggre-

grate 3,000 miles, which includes the Balimore and Ohio Southwestern, which is merged into the parent company. The property will be in better physical condition than at any time in its history, and when plans in process of execution are completed it will be among the foremost American Railways in that respect.

The reorganization of the property vithout foreclosure is regarded as a fiancial feat of unusual skill, as it saves to he company all the franchises of its present charter, including the tax exemption, and perpetuates the history and life of the oldest existing railroad corporation in the country. Mr. John K Cowen has been re-elected president.

As an indication of the intense interest in Baltimore over the coming election for Mayor there has been unusual registration. It will be a test of party strength without even so much as a side issue. Mr. Hayes has been nominated by the Democrats as the proper representative of a popular idea—that of a strong man who will do what he says when dealing with the affairs of the people. On the other hand, Mr. Malster, the Republican nominee, cannot escape the odium attached to a party that is clearly in the line of machine politics.

The "Mothers of America" were the ones most strongly appealed to to rise in their might against the Roberts usurpation; but there seem to be two classes of mothers, and the prepondering class seems to appreciate the man who can honestly love, respect and provide for three wives, as against the other Congressmen love one woman while having several more that they keep to dishonor. GERMAN INSOLENCE. It is regrettable that Congressis not in session, so that the Democrats could inject sufficient ginger into Mr. McKinley ambushing of a small detachment of natives and the killing of two lieutenants, one American and one English, one government four or five times since the war with Spain began, but in every instance the administration has allowed itself to be placated with a little soft soap from the German Ambassador. This Samoan business has aroused the people. and action is demanded. Senator Stewart voiced public sentiment when he said: 'Does Germany want to fight? It so, she may be accommodated. We are peaceful people, but we do not permit others to go around with chips on their shoulders." And Representative Hull, of Iowa, a Republican, said: "In my secand notable men at large who pretend to | tion the feeling has been strong against Germany for six months. The people believe that she was hostile to us in the war with Spain. The people are in such temper that they will not permit any triffing or hedging on the part of this government."
